

Beyond the Hype: Production-Ready Enterprise AI

Path Infotech brings enterprise AI to life with eniwhere - a suite of AI-powered accelerators

Path Infotech is a global technology consulting and solutions partner, enabling enterprises to accelerate AI and digital transformation with confidence. With over three decades of experience across industries and geographies, we bring deep expertise in cloud, data, and enterprise systems-helping organizations modernize operations while unlocking new sources of value. At Oracle AI World Singapore, we are showcasing how enterprises can move beyond isolated AI experiments to production-ready, scalable AI adoption powered by Oracle's latest innovations.

What We Bring to the Table

- Deep partnership with Oracle across cloud, data, and AI
- Proven accelerators for faster time-to-value
- Strong enterprise delivery across ASEAN, India, Australia & North America
- Focus on measurable ROI, not experimental AI

EZinsights^{EW} by Path Infotech

Your AI-Powered Intelligence Partner

EZinsights^{EW} is an enterprise-ready AI intelligence platform built on Oracle Database 23ai and OCI Generative AI, enabling secure, natural-language access to enterprise data and knowledge. It delivers real-time, context-aware insights across core enterprise systems, accelerating decision-making without added complexity.

Capabilities

NLQ Powered Executive Insights, On Demand

For: Senior Leaders, BU Heads, CXOs

Experience the power of conversational analytics. Ask business questions in plain English and receive accurate, contextual insights instantly-without SQL queries, IT dependency, or complex reporting tools.

Business Impact:

Enables true self-service analytics for leadership teams

Shifts routine data queries from IT to business teams

Dramatically improves decision velocity and agility

Provides anytime access to performance insights

AI-Powered Knowledge Base for Contextual Intelligence

For: Operations Teams, Service Desks, Practitioners

Transform scattered enterprise documents-SOPs, user manuals, policies, guidelines-into a unified, AI-enabled knowledge base. Get context-aware answers drawn directly from your source documents using vector search and intelligent retrieval.

Business Impact:

Enables near-instant discovery of documents across the enterprise

Improves knowledge consistency across teams and locations

Accelerates issue resolution with instant access to relevant information

Ensures insights are accurate, contextual, and source-backed

Supplier ^{EW} by Path Infotech

AI-Powered Invoice-to-Pay Automation

Eliminate invoice bottlenecks with AI-powered automation across your entire invoice-to-pay lifecycle. Capture, validate, and process invoices seamlessly-reducing manual effort, accelerating approvals, and driving faster, error-free financial operations.

Capabilities

- AI-based Invoice Capture (PDF, email, scanned docs)
- 2-way / 3-way Matching with PO and receipts
- Exception Handling & Workflow Automation
- ERP Integration (Oracle EBS & others)

Business Impact

- Up to 70% faster invoice processing
- Significant reduction in manual errors
- Improved compliance and audit readiness
- Faster vendor payments, stronger relationships

Why Partner with Path Infotech?

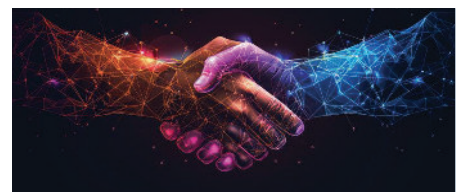

Proven Expertise

30+ years of enterprise expertise across global markets.

AI-First Innovation

AI-first solutions built for real-world enterprise challenges

Strategic Oracle partner

with deep cloud + AI capabilities
